

Biospecimen Procurement Intake & Feasibility Request Form

This intake form is intended to capture the necessary project, specimen, clinical, and logistics information required for biospecimen procurement feasibility review. Please complete as much information as possible prior to submission to the feasibility and sourcing teams.

1. Client & Project Information

Field	Response / Notes
Company Name	
Primary Contact Name	
Title / Department	
Email Address	
Phone Number	
Project / Study Name	
Requested Timeline / Deadline	

2. Project Overview

Field	Response / Notes
Purpose of Request (Research, Validation, Clinical Trial, etc.)	
Therapeutic Area / Disease State	
IRB / Ethics Approval Status	
Patient Consent Requirements	
Special Regulatory Requirements	

3. Specimen Requirements

Field	Response / Notes
Specimen Type(s) Requested	
Diagnosis / Indication	
Total Quantity Needed	
Collection Timepoints	
Sample Format (Fresh, Frozen, FFPE, etc.)	
Minimum Volume / Tissue Size	
Aliquot Requirements	

Matched Normal Samples Required	
Longitudinal Samples Required	

4. Patient Demographics & Clinical Criteria

Field	Response / Notes
Age Range	
Gender Requirements	
Ethnicity Requirements	
Disease Stage / Severity	
Treatment History Requirements	
Inclusion Criteria	
Exclusion Criteria	
Biomarker / Mutation Requirements	

5. Clinical Data & Documentation

Field	Response / Notes
Pathology Reports Required	
EMR / Clinical Data Required	
Genomic / Molecular Data Required	
De-identified or Coded Samples	
Additional Required Documentation	

6. Logistics & Shipping Requirements

Field	Response / Notes
Preferred Shipping Schedule	
Temperature Requirements	
Domestic or International Shipping	
Packaging Requirements	
Preferred Supplier Restrictions	
Special Handling Instructions	

7. Internal Feasibility Review (Internal Use Only)

Field	Response / Notes
-------	------------------

Potential Supplier(s) Identified	
Estimated Availability	
Estimated Turnaround Time	
Feasibility Status	
Potential Risks / Challenges	
Internal Notes	

Prepared For: Biospecimen Sales, Procurement, and Feasibility Teams
This document may be customized further based on therapeutic area, supplier requirements, or study-specific needs.
